PROFESSIONAL SUMMARY

Web Developer and Front-End Developer with an MCA qualification and hands-on knowledge of **HTML, CSS, JavaScript, React JS, Node JS, and MongoDB**. Experienced in developing web applications, responsive portfolio experiences, and a team management application. Strong interest in front-end development, web application development, responsive interfaces, and practical software solutions. Seeking a Junior Web Developer, Front-End Developer, or React JS Developer position.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, React JS

Backend: Node JS

Database: MongoDB

Web Development: Front-End Development, Web Application Development, Responsive Web Development

Deployment: Vercel

PROFESSIONAL EXPERIENCE

Hypertxt — Junior Email Marketing Executive | 6 Months

- Supported day-to-day email marketing operations and technical workflows.
- Worked with digital marketing processes, technical configurations, troubleshooting, and routine operational activities.
- Supported campaign-related execution and maintained smooth day-to-day workflow.

PROJECTS

HAPPYDESK — Team Management Application | 3 Months

Technology Stack: React JS, Node JS, MongoDB

- Developed a full-stack team management application focused on task organization, work visibility, team communication, and workflow efficiency.
- Built the frontend using React JS and developed backend functionality using Node JS.
- Used MongoDB for application data management and structured project information.
- Designed the application around practical team workflow and task-management requirements.

PERSONAL PORTFOLIO — Web Developer Portfolio

Live Demo: happyboyuportofillo.vercel.app

- Developed a personal portfolio website to showcase professional information, technical skills, and web development projects.
- Created a responsive portfolio presentation for recruiters and potential employers.
- Deployed the portfolio online using Vercel.
